Subject: Re: Mining Loopholes

Tony,

I am not in a position to discuss any possible rulemaking by EPA on these topics at this time. I am in possession of some analysis that you submitted relevant to these topics and welcome any other input you may have.

thanks

Nancy

Subject: Mining Loopholes

Hi Nancy. I don't think we've spoken before, but Jan Goldman-Carter has been keeping me up to speed on EPA's and the Corps' regulatory undertakings. NWF has a strong interest in revisions to the waste treatment system exclusion and fill rule as they apply to the discharge of mining wastes, particularly with respect to Pebble Mine. Would you have time today or early next week for a brief phone call about the potential rulemaking? Among other things, I would like to know whether there is anything we can do (research, legal analysis, etc.) to support EPA. Thanks, Nancy.
